

Abdel Fattah el-Sisi President of the Arab Republic of Egypt
Heliopolis Palace, Al Nadi 'El-Montaza,
Heliopolis,
Cairo Governorate, 4460210
EGYPT

14th November 2024

President Abdel Fattah El-Sisi,

Enemy of the State?

My name is Dr Warner and I have written to you many times in recent years. I doubt that your secretaries will have retained copies of these correspondences, but not to worry, as you can access copies of them all on my website www.garp.space

In fact, this is the very reason I write to you now, as it has come to my knowledge that my website is being routinely monitored by your secret police. Am I now being called an “enemy of state”? Who is the liar that is saying this? Is it not the great liar himself, Zahi Hawass, who is standing in the way of Egypt’s project to open the tomb of Pharaoh Khufu and find the Ark of the Covenant? Did I not give this research project to Egypt as a gift, though it represented ten years of my life, and did I not ask for nothing except my anonymity from the beginning? Verify this with your own people and you will find this to be true.

You should know that my patience has been tested at every stage, and that it was only after years of stalling and relentless bureaucracy by your own staff which forced me, reluctantly, to publish my records; I did this in the interests of the Egyptian people...for I know that my own ancestors are Egyptian also.

Now, before anyone accuse me of wild and baseless theories, know this: Your own scientific representatives have supported my research data including Dr Waziri, Mohamed el Seaidy, Dr Ashraf Mohie and others.

These people are not easily swayed and have described my hypothesis as “important”, “a scientific revolution for the benefit of all humanity” and it would embarrass me to say more. Investigate what I have said and you will find it to be true.

These things being true, why has progress stalled again? Because a convicted criminal (who has escaped justice), who is stained with hubris, avarice, and is himself the perpetrator of the lie, has secretly and silently stood in my way; not having the courage or conviction to face me – his name is Zahi Hawass.

He will no doubt also say that I am purporting that the ‘Pharaohs of lower Egypt were Jews’, this is another lie. In fact, what I have proven is the very opposite – for the people who now call themselves “Jews” were once Egyptian, and furthermore - millennia ago - they migrated from the city of Ur, in Mesopotamia.

My data demonstrates our common ancestry as a catalyst for peace and unification, not war and hate.

I can only describe things briefly to you now, but it is vital that you know that I have provided detailed experimental and theological data to prove that ‘religious prophecy’ is rooted in science; explained through an understanding of the quantum field.

However, if anyone were to accuse me of being a ‘religious zealot’, then know that this too is a lie! I am a scientist devoted to scientific truth, wherever it might lead.

Does your own Quran not say this:

قُلْ مَا كُنْتُ بِدَعَاةٍ مِنَ الرُّسُلِ وَمَا أَدْرِي مَا يُفْعَلُ بِي وَلَا بِكُمْ إِنْ أَتَيْتُمْ إِلَّا مَا يُوحَىٰ إِلَيَّ وَمَا أَنَا إِلَّا نَذِيرٌ مُّبِينٌ ﴿٩﴾

(Sahih International: "I am not something original among the messengers, nor do I know what will be done with me or with you. I only follow that which is revealed to me, and I am not but a clear Warner.")

You are an important man, so you will be well-briefed on the important celestial events taking place in the skies above our planet, and I too have briefed your scientists of the return of the ancient winged disc in our skies – our twin binary star. Therefore, I do not have to explain to you the importance and relevance of the

times we are living in today. Neither you, nor I, can hold back what is coming. Again, these are not unsubstantiated claims I am making, as I have provided your scientists with the astronomical observations from my own secret space program.

Egypt plays a central role in what transpires geopolitically, and there is no more room for people who stand in the way of the country's destiny. These people must be removed, starting with Zahi Hawass. But I cannot make this happen, you must do it! We are entering a time of universal judgement and those who live only for themselves, at the cost of others, have no place in the renewed fortunes of the Egypt of tomorrow.

Instruct your secret police to cease their monitoring of my website and turn their gaze to Zahi Hawass. Let them use their investigative resources to establish the truth of what I am saying, and to refute his lies – This man is not a friend of Egypt! If he were a friend, long ago, then is no longer. His time must come to an end, or I cannot help you. Everything I have stated to your people in recent years, despite the many obstacles put in my path, has come to pass. So too will the events which I have explained in this letter – It is science, not magic!

Am I challenging your own position by what I have said? By no means! I am giving you the opportunity to put things right and help guide Egypt to a better future. I cannot make you do this; you will have to decide this yourself.

There is a stone block which seals the southern passageway of the subterranean chamber, beneath Khufu's Pyramid (the great pyramid of Giza). When it is removed you will find the tomb of Khufu, the Ark Box of the Covenant and many other wonderful things. It is this discovery which will reinvigorate Egyptian tourism and solve Egypt's currency crisis; allowing you to focus on the water problem which will grow even more serious in the coming years. I will bring the tourists to Egypt, in vast numbers, this was always to be my gift to Egypt, from the beginning.

The scientific data, which I have donated, will also serve to secure the ancient artifacts as the property of Egypt - to be shared with the world.

I am an advisor to the Scan Pyramids Mission, on behalf of the Supreme Council of Antiquities, a charitable position granted to me under the stewardship of Dr Mustafa Waziri, for which I present no

charge, only the free exchange of my research, which has been deposited at the department's head office in Cairo.

"Courage is knowing what not to fear" - extract from a Socratic dialogue by Plato.

Good Luck!
