Gregory --

You ask:

Are you able to provided me with any of the following?

-Html links which could help me compose my slides

SAS: Suggest you go to my personal site, where you can see films of remote viewing in action.

-A list of your scientific papers on remote viewing.

SAS: There are hundreds. I suggest you go to the SPR Psi Encylclopedia <https://psi-encyclopedia.spr.ac.uk/articles/remote-viewing> where you will find the history of remote viewing and many citations. Also go to Academia.edu search on my name and you will see many papers on remote viewing.

-Videos or slides which I can incorporate into my presentation

SAS: See above.

-A list of government sponsored projects

SAS: The only government sponsored RV program was SRI/SAIC from 1972 to 1995.

– Stephan
